

Dear Colleagues,

On behalf of the Radiation Research Society, I extend an enthusiastic invitation to you to join us for our 56th Annual Meeting, which will take place September 25th-29th, 2010 at the fabulous Grand Wailea Resort Hotel and Spa in Maui, Hawaii. We look forward to welcoming our colleagues from all parts of the globe and in particular the Pacific Rim. The RRS scientific program is the premier venue for formal and informal interactions between radiation scientists in all disciplines.

We are pleased to announce REGISTRATION IS OPEN. Links to the Annual Meeting brochure, registration, and schedule at a glance are now available on the home page of www.radres.org or by using the direct registration link at www.mtnreg.com/rrs. The sites allow you to view the complete conference brochure containing the preliminary information for the SIT Workshop and not to be missed Provisional Scientific Program.

We are pleased to again offer one stop registration service through Mountain Destinations; the Registration Booking Agent for the RRS conference. The registration site contains quick links for schedule, download of brochure, complete destination information, maps and all conference updates. The conference lodging for the host hotel must be booked through Mountain Destinations and can be accomplished easily through the registration site. It is important to note that the host property has extended the much discounted rates for 3 days prior and 3 days post of the conference dates based on availability only- BOOK SOON as it is first come first serve!

Back by popular demand, the registration site includes an exclusive section for SIT registrants. Please select the appropriate category upon acknowledging your entry into the site.

It is important to note that All credit card charges, invoices and correspondence will come from Mountain Destinations. Please add info@mountaindestinations to your safe sender list in order to receive your important conference information and updates.

Our program committee, chaired by Vice President, Peter O'Neill, has put together an outstanding program. A first time offering features a free afternoon with an extended full day program on Wednesday and an optional evening closing event you won't want to miss.

Log on to see the conference highlights; you won't want to miss out on Oceans of Opportunity in Maui, Hawaii. I look forward to seeing you there.

Kathryn D. Held, PhD
President
